SET TIMINGS & CONTROL ATMOSPHERE

- Various lighting scenarios controllable, from home or on the move
- Deter burglars by programming lights to turn on and off when you are away from home
- Can be combined with up to 64 Element products. Energy consumption and efficiency at a glance.

With Element Classic, controlling brightness and light schedules is child's play. Furthermore, you always have your full energy consumption statistics at your fingertips. Element classic is available as a starter kit with 2 bulbs and a Zigbee hub allowing control from home or on the move. Combine up to 64 bulbs for the right lighting ambience. Sengled plants a tree for every Sengled Element purchased. This makes Element the world's first carbon neutral light bulb.
